Mat. McCabe, of New Brunswick, Ill., offers to pay five dollars to any person troubled with bloody flux, who will take Chamberlain's Colic, Cholera and Diarrhoea Remedy according to directions and does not get well in the shortest possible time. One half of a 25 cent bottle of this remedy cured him of bloody flux, after he tried other medicines and the prescriptions of physicians without benefit. Mr. McCabe is perfectly safe in making this offer, as more than a thousand bottles of this remedy are sold each day and it has never been known to fail in any case of colic, cholera morbus, dysentery, diarrhoea or bloody flux, when the plain printed directions were followed. For sale by G. C. Thaxter.

FOR SALE: Eight head of cows and heifers of fine breed, also one Jersey cow with calf. Apply at this office or to J. T. Savage, V. & T. R. R. j22 1w

**How Can Parents** allow their children to cough and strain and cough and calmly say: "Oh! it's only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedic, Druggist.

**Advice to Mothers.** Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic, and is the best remedy for diarrhoea. Twenty five cents a bottle.

The Chicago Inland Printer for July, devoted to the art of printing is superior in excellence, if that were possible, to any previous issue. The number of pages is increased, and the engravings are splendid, especially the ones entitled "Who Said Watermillions," a head-and-shoulders study of a "little black con," with tattered head-gear and the proverbially large mouth and white eyes supposed to be inseparable from the colored race, and a portrait of Captain William Meredith. The Printer has been endorsed as the technical journal of the printing fraternity and is well worth the accorded honor.

## MRS. MACKAY AT HOME.

She Arrives in New York With Her Eldest Son.

Among the many well known people on the City of Paris, which arrived in New York Wednesday, were Mrs. John Mackay and her eldest son. Although Mrs. Mackay has resided in Europe for years her loyalty and devotion to her own land are shown by the fact that it is in an American college she wishes her two boys placed to complete their education.

After meeting her husband Mrs. Mackay accompanied him to the Windsor Hotel, where they remained quietly all the afternoon.

The wife of the Bonanza King was only accompanied by her elder son and two servants. It was her purpose to bring both the children to America, but the ill-health of Clarence, the younger, resulted in his remaining on the other side. It was the mother's purpose that both should become Yale or Harvard undergraduates. William will, in a month or two, enter one of these institutions. The illness of his brother will, of course, delay the latter's matriculation.

Aside from the fatigue of the journey Mrs. Mackay's health is said to be excellent.

Secretary Noble in an interview last week with Delegate Carey, of Wyoming, said the policy of the administration would be a broad and liberal one towards the territories. That lands where there were no evidences of mineral should be opened for patent; that persons who settle upon public lands or purchase lands in good faith should understand that this was his policy and that Acting Commissioner Stone was in accord with him.

The Secretary also informed Delegate Carey that he might say to the settlers of Wyoming that they would have their patents and that in addition to home rule every proper encouragement would be given to efforts looking to advancement of the territories and their admission as States whenever they are prepared to assume the duties of statehood.

The Supreme Court of California has rendered a decision in the case of Seneca Augustus Swalm, who was convicted of grand larceny in having endeavored to make away with several thousand dollars worth of property belonging to R. H. McDonald Jr. It will be remembered that he secured possession of this property and endeavored to escape from the State secretly and under an assumed name. He was captured and convicted of grand larceny, and the Supreme Court has affirmed the judgment of the Court below.

A quiet and gentle sort of an Iowa man called on his recalcitrant wife a few days ago and in order to induce her to return to his domicile. She refused whereupon, in a quiet and gentle sort of a way he shot at her and she fell. He then turned his gun on himself and successfully ended his earthly tribulations after which his wife arose in a quiet and gentle way, unhurt, and had the remains taken to an undertaker's shop. Everything is very quiet and gentle in Iowa, owing to prohibition and the dog-days.

"There is corn in Egypt." Genesis, chapter XLII, v. 2.

This is a phrase in very frequent use, employed to signify a superfluity of any thing. We use it here in reference to the large stock of shoes, groceries, dry goods etc., carried by Oleovich Bros. Bargains in shoes, await the early customer. The stock is complete in every style of desirable foot gear. Come early and often. 20 tf.

**What on Earth**

Is the reason people will not, cannot, or do not see any difference in cheap nos trumps put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing. W. H. Chedic, Druggist.

## BREEDING SOCIALISM.

The tremendous gains in popularity that socialism is making in this country are the natural outcomes of the astonishing abuses of the principal of individualism that are going on all around us. For example, a certain number of persons invest \$5,000,000 in the plant of a gas works, and then by manipulation cause the gas takers to pay interest on a capital, in stock and bonds, of \$17,000,000; that is, more than three times the original investment. The owners of sugar refineries having a market value of not over \$10,000,000 arrange by a combination to capitalize their properties at \$50,000,000, and to earn on this, at the expense of the consumers of sugar, what would be a large profit on an investment of \$150,000,000. These are but samples of operations which are going on all over the country. Competition, in the old sense of the term, is crushed out of existence, and the consumers of commodities of all kinds are gradually losing the chance to purchase except from one producer, with the necessity of paying him such a price as he may demand. This being the case, it is inevitable that a constantly growing number of people will look to the tyranny of a socialistic government as a means of relief from the despotism of trade monopolies.

**RAILROAD EMPLOYEES SWITCHING OFF.**—The death of Tom Clarke, the old-time V. & T. express engineer, has occasioned some changes among the runners on the road. Morris Lonergan, who has been handling the Reno since Tom went to Rubicon Springs, has at his own request been returned to his first love—the double-header which makes two round trips daily between Carson and Virginia; Andy Freeman, so long running the switch engine in the Comstock yards, has assumed charge of the Reno, and Jersey McDonald has taken Freeman's place. Joe McCormack, the express train conductor, has taken his family up to the Lake for a few week's recreation, and Jerry Bray, conductor on the local passenger, will fill his place during his absence. Bob Costello will pull the cord and do the punching on the local until Jerry returns to his post.—Enterprise.

## The War Department.

WASHINGTON, August 2.—Under an order of President Harrison, Brigadier-General McFeeley, Chief of the Bureau of Subsistence, today occupied the desk of Secretary Proctor, as the acting Secretary of War. General Greely says the reports of dissatisfaction with Chief Clerk Tweedale are untrue, that Tweedale had not been acting as Secretary of War, but was merely designated to sign certain papers. He was not empowered to issue orders and issued none.
